

New Future for Children is a children's center in Phnom Penh, Cambodia, founded in early 2003 to provide for the needs of children ages 2 to 18+ who would otherwise be fending for themselves. Some of the children have lost their parents to AIDS. Currently there are 56 children being cared for and protected by a dedicated Cambodian (Khmer staff).

Along with providing housing, three meals a day, clothing, medical care and a safe environment, NFC understands and emphasizes not only the tremendous importance of education, but also the need to provide the children with the practical knowledge and skills to transition to become full and productive members of Cambodian society.

If you care, you can make a difference, especially at New Future for Children. We're not only giving these children a safe home, but a home where the emphasis is on education. With your help we can give them the education they need and a future full of hope! If you would like information on volunteering at NFC or if you would like to make a donation please contact:
